I had the pleasure of meeting both Lyndon Wilson, and John Thompson of Custom Golf. These, are two owners that are passionate about what they do.

They know every golfer's size and swing is individual, from their height, arm length, hand size, and swing speed. They have the ability to pinpoint the right equipment, so you can get the most from the game. Lyndon, and John know it's in the details, and they deliver on design, and fit.

For those that want to see the latest trends in equipment, and get solid advice, this is the place to visit. Play better golf, and let your passion be your pleasure. This is a friendly place that also stocks golfing gear and apparel.

Custom Golf is located in the King's Ridge Publix Plaza in Clermont, between two of the areas most beautiful golf courses in the South Lake area. Enthusiastic golfers welcome their presence, and appreciate the golfing tips they disperse when they address the golfing club members.
